STATEMENT OF AMICUS CURIAE, JEFF RANDALL

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools have had roofs that leak, low salaries from the custodians to the superintendent, lack of equipment, etc., and high taxes for years. Our tax rate was \$1.20 per hundred back when \$0.50 and \$0.80 rates were considered high.

More money is needed now for the low value districts to meet the challenge of educational reform; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you, *Jeff Randall*

STATEMENT OF AMICUS CURIAE, Jennifer Roeder

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our school's classrooms have more students in them than they should. Therefore, each student does not have the individual attention that they deserve.

Our school has one counselor who has to divided her time between the high school and the junior high school. She is not always there when needed. Especially for the Seniors who are planning on furthering their education.

More money is needed now for the low value districts to meet the challenge of educational reform; further delay will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,

STATEMENT OF AMICUS CURIAE, Felicia Adkins

I am very concerned about our education in Texas. I am an involved senior at Sanger High School. I've been involved with extra curricular activities throughout high school. I've competed against and played with students from richer school districts. Coming from a poor district I have watched all the larger and richer schools go farther and do more than smaller and poorer schools. I know that money can't buy a first place any U I L or school related competition, but the students from these schools have more pride for their schools and themselves. When a student has pride in its school and the school has pride in its students, it makes the students worker harder to be the best. I feel that many people that have graduated from Sanger or any small school or district, or will graduate has been cheated. We haven't had proper facilities or I hate to say but we haven't had the best of qualified teachers all though we do have some. I feel that if you hire an English teacher then they should teach that subject not just put them where some is needed or if you hire a football coach don't put with basketball put him with football. It's sad that Texas' Legislature and Governor doesn't support an equitable method for the distribution of state funds.

Another major need not just in Sanger but in many small towns or poorer districts is the need for larger schools to hold the steady increasing enrollment and facilities that are well equipped and official size such as gyms, football fields and tracks. But the most important is our teaching staff. Sanger has had to cut its staff and the staff that we do have got a cut in their pay. I feel that there is one official that can't be cut and that is the counselor. We have one counselor for two schools which is about 600 students. It impossible to have one counselor be at both buildings for the students all throughout the school day.

More money is need now for poorer schools to meet the educational challenges of the richer schools. The longer the delay the worse the schools can get and then it will cost more to repair or replace.

I authorize an attorney selected by the Equity Center to incorporate this statement is an amicus brief on my behalf supporting Petitioners and Petitioner-Investors in the Engewood case.

## Statement of Amicus Curiae, DeeDee Kizzar

I am deeply concerned about the Texas public education facilities, and the failure of the legislature and Governor to support a method for the distribution of state funds in Texas.

Our schools have awful facilities. Our roofs leak, we have old wooden desks, we have class in portable buildings because our schools are too small for all the students, we do not have enough facilities to better ourselves in sports. For example, we do not have track and field equipment.

We need more money to better our schools and our education as students.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Statement of Amicus Curiae,

Jami Greenville

Now that I have become informed of the ability I have to acknowledge my concern of the deterioration of our school systems.

Our schools do not have adequate room for the number of students, therefore portable buildings were added, because of this time is wasted with students settling into these buildings and valuable study time is wasted.

There are not enough teachers in each department and students are being cheated on their learning extension.

More money is needed by our school district and other school systems with similar problems.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner -- Intervenor in the Edgewood case.

Thank you,

STATEMENT OF AMICUS CURIAE, Heath Hayes

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

The Sanger School District is in a constant state of suffering. Our roofs leak, and the lighting is inadequate in some rooms. ~~The~~ Worst of all, the SPSD has been on a paper shortage for the past two years.

The School Board members, teachers, students, and parents of Sanger are not asking for facilities identical to the larger schools. We are simply asking that ~~the~~ the Governor and the Legislature realize that educational opportunities should not be determined by where one's parents decide to reside.

I authorize an attorney selected by the Equity Center to incorporate this statement ~~as an~~ <sup>in</sup> amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE, Christi Norton

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools cannot compete on equal terms with students whose school districts have greater financial resources. Also, our student's ability to succeed economically is impaired by inadequate educational opportunities.

Our schools also have limited specialized personnel such as counselors. We have only two counselors for all four schools: Sanger Elementary, Intermediate, Middle, and High School.

More money is needed now; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner Intervenors in the Edgewood case.

Thank you,

STATEMENT OF AMICUS CURIAE, Sarah Gardner

I am a Senior at Sanger High School and I am concerned with the lack of money available to be spent on our schools; as well as, how that effects us as students.

Due to the lack of money in our district, our schools are in bad shape. Our roofs leak, our football field is in horrible shape, and there are not enough classrooms to accommodate all of the students. Furthermore, there is a lack of specialized personal, such as counselors. There is one counselor that takes care of both the High school and the Middle School. Whenever the counselor is needed, she is not always available, because of her many responsibilities.

As students, all of these things effect our school spirit. We are unable to feel proud about our school; moreover, this effects our ability to compete with other schools. Overall, the only way to tackle the many problems in the Sanger School District is with more money.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief supporting Petitioners and Petitioner Intervenors in the Edgewood case.

Thank you,

**Statement of Amicus Curiae, Cheryl Hausenfluck**

I am vitally concerned about public education in Texas, and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools' budget has been cut in almost all areas. The high school building needs to be rebuilt. The roof leaks and we need more room for lockers and equipment. As it now stands just the maintenance has been cut by \$50,000. So obviously a new school is impossible. More staff is needed but already 2 teachers, 3 part-time custodians and 2 cooks have been cut. Ninety-three other employees' salaries have been frozen. Extra-curricular activity has been cut. And local taxes have been raised by 2.9%. Still, the Sanger Independent School District projects a \$110,000 deficit for the current school year.

If this is allowed to continue there will almost certainly be further damage to the district and the education of the students of Sanger ISD.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief supporting Petitioners and Petitioner Intervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE, Lori Cooper

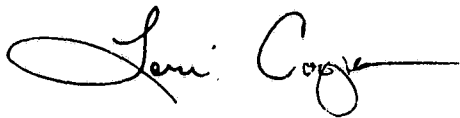

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools have had roofs that leak, low salaries from the custodians to the superintendent, lack of equipment, etc., and high taxes for years. Our tax rate was \$1.20 per hundred back when \$0.50 and \$0.80 rates were considered high.

More money is needed now for the low value districts to meet the challenge of educational reform; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,

STATEMENT OF AMICUS CURIAE, Ashley

I go to school in a little town called Sanger. It is in Texas by a new lake. Some people say they pay alot of tax money to live here. Some people say our schools don't get as much money as Dallas and San Antonio. I don't think that is fair. In school, we have learned one person is just as important as another person. I think I am just as important as a child who goes to school in a big city, and my school is just as special as the schools in Dallas. The State of Texas should be fair to every child and every school. My school should get just as much money as the bigger schools do.

I urge you to hear and support Edgewood v. Kirby.

STATEMENT OF AMICUS CURIAE, Tim

I live in a little town called Sanger, Texas. I go to school at Chisholm Trail Elementary School. I think the State of Texas should be fair to all the children who go to school in Texas. I think that just because a child goes to school in a little town doesn't mean his school should get less money. It takes as much money to run a school in a small town as in a larger town. We need your help!

I urge you to hear and support Edgewood v. Kirby.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,
